

Test Broadcasting

AbsoluteMobile is a mobile text broadcasting service that enables individuals, businesses, institutions, and professionals to send unlimited mobile text messages to unlimited number of subscribers - all at the same time, with one click of the mouse - delivered 100% via short code - with no per message fees whatsoever.

Our mission is to help individuals and small to medium size businesses get multi-media presence in today's ever fast changing world. If you do not have the tools, you cannot compete or expect to get the job done. Our technology services are different from our competitors simply because we make ours affordable. You don't have to have a corporate budget to get the same benefits as the big name companies. Our AbsoluteMobile products and services are cutting edge, and our consultants are eager to help you with a new marketing tool allowing your company to target each and every potential customer. Gone are the days of expensive advertisements, and campaigns with low returns. It is our goal to provide you with the best in on-demand mobile information services. We will give you a total marketing package and tool for less than \$400 dollars per year! The best part is there is no waiting... you can be live to the whole wireless world in less than 5 minutes!

AbsoluteMobile gives you the World at your finger tips

Get one "Adname" to allow access to your business. Adname is like a URL (Website Address) and they are going quick. Get yours today and unleash the fastest way to market your product or service. Imagine for example that you own a pizza business, if you registered the keyword "Pizza" with AbsoluteMobile all someone would have to do is text in: "AbsoluteMobile Pizza" and they would immediately be text messaged your information or advertisement. This gives your business one word identity through Text Messaging, which is the fastest, best, up close and personal way of marketing. The best part is the customer is coming to you free-will and ready for your message, Will you be prepared with your "Adname" identity?!!

Did you know that 84% of the US population has mobile phones? That's an easy 250 million potential customers. Both Individuals and Companies can now have the undivided attention of millions of consumers by interacting with their mobile handset.

On Demand Mobile Text messaging

There has never been a form of marketing and information sharing more up close and personal than a text message. Just as Google's simple plain text ad revolutionized the media rich, online advertising market, Text Messaging has redefined customer relationships.

Like the Google text ads, text messaging is exploding. 48 billion messages were sent in December 07, up from 30 billion in June. Every day, more businesses and organizations are taking advantage of the fastest growing communication technology ever.

AbsoluteMobile is an excellent way to reach customers, congregations, students, staff, employees, members, friends, fans, and more. AbsoluteMobile can be used to send important notices, special announcements, event calendars, sales invitations, promo offers, product intros, discount deals, & much more. AbsoluteMobile is a tool for our mobile generation. It is a timely service that is ripe and ready to meet the needs of a mobile marketplace that is booming in reach, value, and opportunities.

KEY FEATURES

- Unlimited subscribers. Unlimited messaging.

People who use AbsoluteMobile service can build an UNLIMITED Mobile Subscriber List, and send an UNLIMITED number of messages - for one low annual flat rate. There is never a per usage, per subscriber, or per message charge.

- Uses short code for opt-in & delivery.

AbsoluteMobile uses a special, six-digit short code for subscriber opt-in and for message delivery. And because AbsoluteMobile uses the official DOTCOM, DOTNET and DOTORG Short Codes, users do not have to pay any short code fee or per usage charges.

- 100% no-spam.

Consumers can feel safe about AbsoluteMobile because the short codes we're using are 100% spam-proof. Subscribers receive text messages only by permission, and they can unsubscribe anytime.
